** Due to the alcohol content of our Syrah Port, we are unable to ship this wine to Montana and Idaho*

Wine shipping laws are always changing, so we encourage you to call the tasting room to confirm this list.

Due to extreme temperatures, we do not ship wine in summer or winter months. If wine is exposed to these conditions it will likely become damaged in transit. Our team consistently checks the weather during these times and will hold your wine in our temperature controlled cellar until weather permits safe transit.

If you have any questions or concerns about these shipping policies, please contact the winery.
